QR Wash Payment & Dashboard

A QR payment and dashboard system for self-service car wash operators. Customers scan, choose credit, pay securely and operators track wash revenue, sessions and bonus offers.

Payment demo	Dashboard demo

Why this matters

No app barrier	Customers can pay quickly by QR without downloading an app.
Bonus credit offers	Promote offers such as pay £5 and receive £6 total wash credit.
Operator visibility	Track revenue, starts, failed sessions, bonus packs and projected revenue.
Remote setup	Most software setup can be configured remotely around the existing payment/start flow.

Commercial model

Pilot site setup	From £799 one-off	QR payment page, dashboard setup, branding, pricing packs and launch support.
Monthly per site	From £199/month	Hosting, dashboard, reporting, payment flow maintenance and support.
Multi-site	Custom	Group reporting and discounted rollout for additional locations.
Custom integrations	Quoted separately	Machine-start integrations, loyalty, staff controls or bespoke reporting.

Features included

QR payment page, Apple Pay / Google Pay / card payments, bonus credit offers, dashboard metrics, recent transactions, busiest hours, bay/location reporting, projected revenue, recommendation controls and optional loyalty features.

Customisation

The system can be customised around the operator's existing setup, including branding, payment flow, loyalty rules, bonus offers, staff controls and site reporting.
